**Guidelines for authors**

Materials submitted must not have been published elsewhere nor should they be currently under review for publication in any other journal.

Submissions must be in one of the following European languages: English, French, German, Italian or Spanish. Manuscripts in languages other than English, however, are subject to the availability of appropriate Action Editors and reviewers; they must be accompanied by an extended Abstract in English of at least 1000 to 1500 words. Enquiries prior to submission regarding the intended language of publication are welcome.

If English is not your first language but your article is in English, you should seek the services of a native English speaker competent to act as a proof-reader / editor before submission. The Managing Editor can recommend appropriately-qualified individuals if necessary.

Manuscripts should be typed in double spacing using Calibri font 12 throughout. Pages must be fully numbered and all tables and figures labelled (tables and figures may be positioned within the text). These should be sent electronically, together with any associated audio-visual materials, to the Managing Editor ([jane.ginsborg@rncm.ac.uk](mailto:jane.ginsborg@rncm.ac.uk)).

Please attach a letter to the submission confirming that all authors have agreed to the submission and that the article is not currently under review for publication by any other journal.

**Each manuscript should contain:**

(i) Title page with full title and subtitle (if any). For the purposes of blind refereeing, full name of each author with current affiliation and full address/phone/fax/email details plus short biographical note (50-100 words) should be supplied on a separate sheet.

(ii) Abstract of 150-250 words summarizing the principal research questions, aims, hypotheses, methods, findings and conclusions of the article.

(iii) 4-6 keywords

(iv) Main text and word count. The suggested target is 6000-8000 words for articles (but no more than 10,000 words) and 1000-3000 words for research notes. The text is to be clearly organized, with a clear hierarchy of headings and subheadings. Quotations exceeding 40 words should be indented in the text.

(v) End notes, if necessary, should be signalled by superscript numbers in the main text and listed at the end of the text before the references.

(vi) References in both the text and end notes should follow American Psychological Association (APA) style whereby references should be cited in the text and reference section in alphabetical order.
